- Fife, WA
- Pune, India

STRATEGIC PRESENCE IN INDIA: From its headquarters in the U.S., CAB Worldwide's operations and network of established supply chain partners spans the entire country. Within India, CAB's diverse supplier network has been built over the last 25 years and is effectively managed through a centrally located office and warehouse in Pune, India. This strategic, central location is positioned in one of India's premier manufacturing hubs and boasts the supply chain, engineering, quality and logistics expertise needed to streamline any supply chain operational challenge.

EXPERTISE THAT MAKES A DIFFERENCE:

CAB's global engineering team includes professionals in the U.S., China and India. The in-country India team stands at 20 strong and is growing. Both in India and in various other countries around the world, CAB's engineering team has specialized expertise in forging and foundry processes, precision machining, gear cutting, weld assemblies, fixture and gauge design, metallurgy and continuous process improvement. This deep domain knowledge, coupled with its U.S. and in-country professionals, allows CAB to accelerate the slow trial and error processes often found within product development and production ramp up.

LOCALIZED SUPPORT ACROSS INDIA:

CAB doesn't just manage from a distance; its engineers and quality personnel are located in key areas throughout India. This strategic presence allows for extensive, local support, training, process improvement and quality oversight that directly contribute to the reliability, speed and cost efficiency of supply chains.

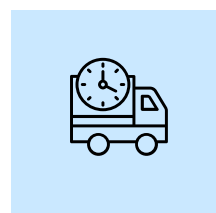

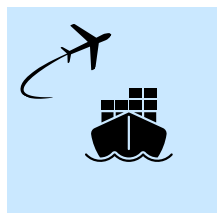

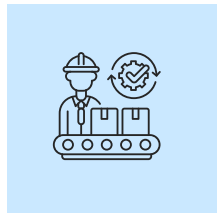

Expert Engineering & Quality Control Teams in India

ROBUST SUPPLIER NETWORK:

With a strong network of more than 50 qualified supply chain partners across India, CAB Worldwide offers unparalleled access to some of the best manufacturing capabilities in the world. Each CAB supplier is carefully selected, audited and regularly monitored to meet the high standards of quality and deliverability that CAB is known for worldwide.

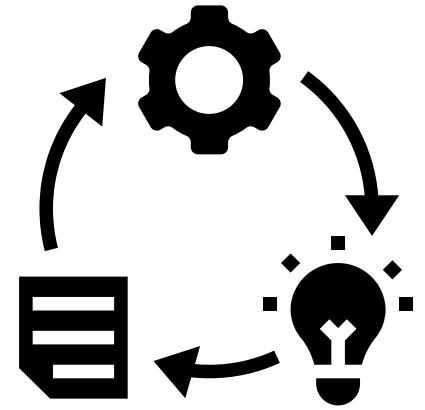

VENDOR OWNED INVENTORY AND JIT DELIVERY:

To further enhance the efficiency of your supply chain, CAB offers Vendor Owned Inventory (VOI) programs and Just-In-Time (JIT) delivery systems from its U.S. locations. These services are designed to reduce lead times and manage inventory costs more efficiently, making for leaner and more responsive supply chains.

TAILORED SOLUTIONS FOR EQUIPMENT MANUFACTURING:

CAB understands that each project is unique and provides customized solutions to address the specific challenges and requirements of each distinctive equipment manufacturing process. Whether it's utilizing CAB's in-house engineering team with their deep Design for Manufacturing expertise to reduce product costs, implementing new technologies or optimizing existing production lines, CAB's tight control of supply chain performance ensures that your needs are met with precision and innovation.

Proven Track Record of Success:

CAB Worldwide's history of successful supply chain management in challenging, emerging markets spans over 40 years, positioning it as an industry leader. By partnering with CAB, you're gaining a strategic ally that is committed to diversifying your supply chain, reducing supply chain risk and lowering total cost of ownership.

Partnering with CAB Worldwide ensures that the move to diversify your supply chain into India is not only strategic but is also implemented with the highest standards of excellence and efficiency.
